

Quick facts

Data as of Dec. 31, 2019

Our mission

Provide affordable, reliable and environmentally sensitive energy services to our customers.

Company highlights

- Operating since 1946
- Publicly owned
- Governed by elected board
- Headquartered in Omaha, Neb.
- Serves 855,000 people in 13 counties
- 5,000-square-mile service territory
- 12th-largest public power utility in U.S. per number of customers

Numbers that make cents

Generating capability
2,690.8 megawatts (MW)

System peak load
2,436.1 MW

Total utility plant
\$4,586,990,000

Megawatt-hour sales
15,347,271 MWh

Number of employees
1,797

Miles of electric line
15,966

Average number of electric customers
384,515

Payments in lieu of taxes
\$35,030,000

Capital expenditures
\$206,301,000

Operating revenue
\$1,160,719,000

Average cost per kilowatt-hour – residential
11.30 cents

Average annual use – residential
11,114 kilowatt-hour

OPPD rates are below the national average.*

*According to preliminary December 2019 figures from the Energy Information Administration

Renewables for 2019

as a percentage of Retail Sales

Wind	27.0%
Hydro	3.5%
Landfill gas	0.4%
Total	30.9%

Public power works for you

Nebraska is the only state in the U.S. whose residents get their electricity almost entirely from public power utilities. For more than 100 years, public power has provided benefits like:

- **Local control.** Nebraska utilities are overseen by publicly elected boards, appointed utility boards, rural cooperatives and city councils.
- **Reliability.** Public power utilities are committed to maintaining reliable service.
- **Affordability.** Public power rates are based on the cost to provide service, not the financial interests of stockholders. Low-cost power gives the OPPD service territory a competitive advantage when attracting economic development to our communities.
